Captain's Letter! No 5.

Firstly I hope all of you have had a good summer, whether here in Spain, or other parts of the globe. One person who has had a rough summer is our handicap secretary, Brian Howard, who has been very ill. I would like to wish him well from the Society and myself. I would also like to thank Peter Thompson for standing in for Brian.

I have organised our holiday from the 5th to 9th March in Jerez. The good news is after further negotiations, the price will be around 40euros cheaper for a golfer & about 20euros cheaper for non golfers.

The new price will also now include 3 nights half board. We have had a tremendous response and the holiday is now completely full!

Los Moriscos is now a full 18 holes and reports say that great improvements have been made to the course. The 19th Hole (The Club House) is now back to winter hours i.e. open from mid-day till late, 7 days a week. Sunday lunches are very busy and we would appreciate it if you would ring for your tee times after 5pm. Your Captain *Jim Emery*

Professor W. H. Anker *our resident golf psychologist,* *answers your golfing problems*

Dear PROF, My wife resents the time I spend on the golf course and has begun to talk of taking up the game so that we can play together. I'm beginning to feel trapped. Your help is desperately needed. *John from Nerja.*
PROF replies:
Don't worry, this is a problem I had to deal with when Mrs Anker became equally demanding a few years ago—and your solution should be the same as mine. First, enthusiastically agree to take her to your club, preferably on a rainy day. Then get your wife to put on her tallest stilettos (for extra grip) and take her to the practice ground with a 1-iron. Find a hanging lie and let her blast away. After 10 minutes she will want to stop but you must be as encouraging and helpful as possible, while insisting she keeps at it for at least half an hour. Then treat her to a nice meal and a bottle of wine. She'll never mention playing golf ever again.

Golf Nut!

Last summer John met a woman while on vacation & fell in love. On their last night John said "It's only fair to warn you, I'm a total golf nut. I eat, sleep, think & breathe golf, so if it's a problem you'd better say now" she replied "Well, I'll be honest with you I'm a hooker" "I see" said John "You know it's probably because you're not keeping your left wrist straight on your follow-through"
Apologies
